

Monthly Events

We hold in a month about eight to ten education events. The events refer to business, education and personal improvement and social and cultural themes. The topics deal with such diverse issues as mergers and acquisitions, success stories, chats with leading politicians, relevant matters of concern and brainstorming discussions connected with burning topics.

Special Events

This tool enables the members to assimilate the vast reservoir of knowledge from a selected group of top-rated speakers. The concerned topic is explained in a elucidate and easy presentable manner so that its deeper intensity can be grasped by the member-listeners. In this way, the same can be well-utilised by the members in tackling the problems that come their way.
